Detailed Project Description and Justification:

A piece of heavy equipment is necessary to help in the construction, operation and maintenance, and improvement of a number of community facilities and infrastructure needs. An example of a facility in need is the community landfill. Other infrastructure maintenance and operation include:

- The road up to the Tsunami Shelter
- Repair to the failing seawall
- General community road maintenance

This piece of equipment can also be leased out to contractors who come to the village to perform other projects. This income will be an important economic revenue item to the city budget.
